Career Objective

Fourth semester BCA student with interests in AI-powered applications, software development, and technology-driven problem solving. Experienced in building and experimenting with AI-integrated products, including browser-based tools utilizing Large Language Models (LLMs). Currently expanding knowledge in AI/ML foundations, prompt engineering, and automation workflows while strengthening software engineering skills. Seeking internship opportunities to contribute to AI innovation, product development, and practical technology solutions in collaborative environments.

Academic Qualification

Bachelor of Computer Applications (BCA)

Inspiria Knowledge Campus (affiliated to MAKAUT) | 2024 – Present

CGPA: 8.32/10.0

ISC (Class XII – PCMB)

St. Joseph's HS | 2023

Score: 74.5%

ICSE (Class X)

Auxilium Convent School | 2021

Score: 91.3%

Projects

- **QueryBridge** — Developed an AI-Powered Search Enhancement Extension that leverages Google's Gemini 2.5 Flash API to transform vague search queries into more precise and context-aware alternatives. Designed the workflow for AI-assisted query refinement, enabling users to improve search effectiveness before performing web searches. Implemented secure API key storage, browser integration, and user-friendly interaction flows using Manifest V3 architecture. Technologies: JavaScript, Chrome Extensions API (Manifest V3), Gemini API, HTML/CSS. GitHub: <https://github.com/ladridam/QueryBridge>

- **Encore** — Developed during a Designathon, this mentorship platform for retirees features an accessibility-first UI with high-contrast typography and WCAG-aligned colors to ensure ease of use for an elderly audience. Technologies: React, TypeScript, Vite, Tailwind CSS, Radix UI. View at: <https://encore-seven.vercel.app/> and github:<https://github.com/ladridam/encore>

Co-curricular Activities

- **President, Wellness Club (Inspiria Knowledge Campus):** Leading a club with 40+ active members; organizing wellness events and inter-departmental outreach.

- **NGO Volunteer:** Teaching conversational English to 5 secondary school students (Class 9) for 4+ weeks using a self-designed curriculum.

Achievements

- **First Runner-Up** in Inter-Departmental Business Pitch Deck competition among 12 teams, at Inspiria Knowledge Campus.

- Completed advanced certification (Double Diamond level) in professional soft-skills development programme, Inspiria Knowledge Campus.

Certifications

[Basic Python Fundamentals - GeeksforGeeks](#) | [Working in Contemporary Teams - NPTEL](#) | [Science of Happiness and Wellbeing - NPTEL](#)

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java, C

AI & Automation: Prompt Engineering, LLM Applications, Gemini API Integration, AI-assisted Workflows, AI Tool Research

Web Technologies: HTML, CSS, React, Tailwind CSS, Vite, Chrome Extension Development

Tools & Platforms: Git, GitHub, Figma, Lunacy, Vercel, Render

Concepts: REST APIs, Responsive Design, Accessibility (WCAG), Version Control, User-Centered Design

Operating Systems: Ubuntu Linux, Windows, macOS
